A cleanup plan is a good idea but we have to make sure we can afford it. It's unfair to require city of Portland residents to share in so much of the cost of paying for the cleanup - we didn't cause it! The river is used by tens of thousands of people and businesses who should all share in the cost of the cleanup. At the very least it should be shared throughout the multiple county areas and I think the state of Oregon as well. A clean Willamette River benefits the state of Oregon and not just the immediate areas.

I support harbor jobs that are good for our communities; especially family wage jobs. I do not support jobs associated with industries that contribute to the pollution of the river.

Sincerely,

(b) (6)
